

# New Downtown Public Parking Lots

Construction on CSAH 30 from North Branch to Harris will begin in April 2021 and go through fall of 2021.

To address deteriorated pavement, the lanes and left-lanes of CSAH 30 will be overlaid with concrete pavement. Shoulders and right-turn lanes will be re-surfaced with bituminous pavement.

In the City of North Branch, aging watermain will be replaced. Additional improvements to storm sewer, sidewalk, and ADA pedestrian ramps to complete the project.

On street parking will be reduced and eventually eliminated - exciting new Public Parking has recently been identified and new signage installed- the map to the left identifies all Public Parking locations in the City.

## CSAH 30 Reconstruction Improving for Safety!
